Handover)**

System Handover & Content Governance

The Project CHAM web application is built on a **modular, database-driven architecture**. All front-facing dynamic content—from clinical education articles and family stories to team leadership, hospital outreaches, documentary galleries, and donor inquiries—is connected directly to the bespoke **Project CHAM Staff Admin Panel**.

Developer-Free Content Management: Your team does *not* need to edit code, touch templates, or hire developers to update the organization's daily work. Any modification made in the admin portal publishes to the live website instantly.

How to Access the Admin Portal

1. Portal Address

Visit <https://projectcham.com/admin>
(Or click "Staff & Admin Portal" in the website footer)

2. Security & Credentials

Protected by Laravel Fortify with **Admin-only authorization**, email/password verification, and optional Two-Factor Authentication (2FA).

Complete Summary: What Can Be Edited From Admin

Admin Module	What Your Team Can Edit	Public Destination	Control Level
Account & Security Profile & Access	Change admin password, email, staff name, configure 2FA authenticator apps.	/settings	SECURITY

1. Stories & Guides (Knowledge Hub)

Rebranded from generic blog posts to the "**Learn & Understand**" Childhood Cancer Knowledge Hub. This section positions Project CHAM as the authority on childhood cancer awareness and guidance in Nigeria.

Stories Management

</admin/posts>

- ✓ **Rich TipTap WYSIWYG Editor:** Formatted headings (H2, H3), bold, italics, quotes, numbered & bulleted lists, and link insertion.
- ✓ **Direct In-Editor Image Uploads:** Drag-and-drop or select images directly into your text with automatic resizing and secure server storage.
- ✓ **Strategic Category Pills:** Choose from *Early Signs*, *Family Stories*, *Treatment Guide*, *Caregiver Wellbeing*, *Hospital Navigation*, or *Research & Data*.
- ✓ **Featured Banner Photo:** Upload high-impact article cover photos that appear in search cards and top of the reading page.
- ✓ **Publication Workflow:** Save as **Draft** while reviewing, or set to **Published** with custom publication date and automated slug generation.
- ✓ **Medical Disclaimer Banner:** Every published article automatically features Project CHAM's approved clinical and safeguarding disclaimer.

2. Events & Community Outreaches

Directly addresses the review request regarding events: your team can keep the Events page fresh, adding real community awareness sessions, hospital outreach visits, and support circles.

Events Management

</admin/events>

- ✓ **Title & Description:** Detail the purpose, agenda, and expectations of the session.
- ✓ **Date & Exact Timing:** Displays clearly formatted dates (e.g. "14 Oct, 2026 · 10:00 AM").
- ✓ **Hospital & Physical Venues:** Specify locations (e.g. "LUTH Paediatric Oncology Clinic, Lagos") or virtual meeting links.
- ✓ **External Registration / RSVP URL:** Add links to Google Forms, Eventbrite, or WhatsApp community links.
- ✓ **Event Poster Upload:** Upload event flyers or session photography.
- ✓ **Status Control:** Mark events as *Draft*, *Upcoming*, or *Past / Concluded* to keep historical records.

Medical Wording Standard: When posting new articles or awareness flyers, follow the newly instituted responsible clinical phrasing: use "*Greater awareness of warning signs*" and "*Prompt medical evaluation*" rather than unverified cure claims.

3. Team, Board & Clinical Advisors

As noted in the client review, Project CHAM's team is actively growing. Instead of static code, the Team module allows staff to add, update, or remove leadership and advisory members at any time.

Team Directory Management

</admin/team>

- ✓ **Member Identity:** Full Name, Professional Title (e.g. *Executive Director, Oncology Liaison, Psychosocial Lead*).
- ✓ **Executive Biography:** Dedicated narrative field for professional background and passion for childhood cancer care.
- ✓ **High-Resolution Portrait:** Upload square or portrait headshots with automatic centering.
- ✓ **Social & Contact Handles:** LinkedIn, Twitter/X, Instagram, and official email address.
- ✓ **Display Ordering:** Assign numeric order (e.g. 1, 2, 3) to control who appears at the top of the team directory.
- ✓ **Active / Hidden Toggle:** Hide a profile without deleting it if someone is on sabbatical.

4. Documentary Photo Gallery 5. Family Voices & Reviews

Photo Gallery

</admin/gallery>

Manage visual proof of Project CHAM's impact:

- ✓ **Photo Upload:** High-res JPG/PNG storage.
- ✓ **Caption & Context:** Explain the outreach, hospital ward, or community workshop.
- ✓ **Tagging:** *Hospital Outreaches, Art Therapy, Awareness Sessions, Family Circles.*
- ✓ **Live Sync:** Immediately updates /gallery and the homepage documentary strip.

Testimonials

</admin/reviews>

Manage emotional and transparent family quotes:

- ✓ **Author Name:** Parent, caregiver, or volunteer.
- ✓ **Affiliation:** e.g. *"Parent of 6-year-old warrior"*.
- ✓ **Child Safeguarding:** Toggle *"Identity Protected"* badge for ethical privacy.
- ✓ **Approval Status:** Moderate and approve before displaying on the homepage carousel.

6. Donor & Partnership Inquiries (Built-In CRM)

When a supporter or corporate partner submits an inquiry via the revamped /donate page, it is logged directly into the Admin Donor CRM with instant staff visibility.

Inbound Donor Pipeline

</admin/donors>

Pillar Captured	Status Flow	Staff Actions
- Sponsor a Child's Treatment - Support a Family (Nutrition & Psychosocial) - Corporate / Institutional Partnership - Fund Childhood Cancer Research - Monthly Care Partner - General Support	NEW CONTACTED IN PROGRESS FULFILLED	- One-click email & phone call access. - Internal Staff Notes log. - Track wire transfer receipt confirmations. - Filter leads by Pillar and Date.

Client Handover Checklist: Admin vs Code
